

## **REFERRALS**

In order that we can undertake specific work to help and support your child or family, with interventions that are within our remit but are not routine, school staff and other professionals may need to refer your child to our service using a Referral Form but would need your permission to do so. Examples of the kinds of support we offer that would need a Referral Form would be a request for information and advice around housing, or help for your child to manage menstruation in school.
